About the Jerusalem Institute of Justice

The Jerusalem Institute of Justice (JIJ) is an Israeli legal and research Institute, dedicated to cultivating and defending human rights, the rule of law and democracy.

Established in 2004, JIJ operates both internationally and domestically. We work to uphold freedoms in the region by submitting charges of the gravest crimes to international tribunals and governmental bodies.

JIJ's International Law and Public Diplomacy Department stands at the forefront of Israel's struggle to maintain its standing among the international community.

We use the legal and advocacy tools at our disposal in order to confront the most complex issues.

Our in-depth research, legal expositions, memos and position papers have impacted the lives of millions around the world and are presented before the International Criminal Court in The Hague, the Israeli Parliament, the United Nations and governmental offices worldwide.

JIJ, is offering an interdisciplinary program of both educational and practical experience.

GDC Israel provides a holistic approach for young Jews in the diaspora that are interested in strengthening their Jewish identity, deepening their connection to Israel, and developing their professional and personal skills.

Participants acquire the necessary knowledge and tools to achieve a meaningful career while being immersed in the complexities of daily life in Israel.

CHALLENGE & SOLUTION

Israel faces a wide range of challenges in the international arena, such as: attempts to promote the delegitimization in the world arena, the recruitment of different international powers against Israel, the promotion of coordinated legal and political attacks, an alarming rise in manifestations of antisemitism, and the BDS movement's activities.

We believe these challenges require the adoption of a proactive approach, joining forces, and reaching creative solutions. From the perspective of a shared destiny and in order to fulfill our vision, GDC Israel was designed as an innovative and professional program for self-empowerment. It provides the infrastructure to foster the leadership potential in the next generation of influencers and works towards advancing Israel's interests in the international arena.

PROGRAM OUTLINE

01

Innovative Academic Studies

The comprehensive curriculum covers relevant topics: Israel's unique characteristics in the global political landscape, the influence of key international players on Israel's legal standing, and Israel's internal politics and civil society.

The curriculum is led by Dr. Jeremy Bracka, an experienced professional who has held key positions in the international arena, and in academia at Hebrew University in Jerusalem. Additionally, the program's participants are inspired by guest lecturers and receive career counseling and assistance writing personalized, goal-oriented resumes.

02

Public Speaking Workshop

During the first eight weeks, the core of the curriculum is a series of public speaking workshops instructed by the leading institute in Israel. The eight workshops offer the participants a complete set of tools and skills: oratory, messaging and advanced communications proficiencies.

GDC Israel graduates enjoy a significant advantage in the competitive and ever-changing working world.

03

Hands On Experience

The second part of the program focuses on practical work and achieving field experience. Equipped with their new knowledge and expertise, the participants are incorporated into the leading internship program of the Jerusalem Institute of Justice, where they put theory into practice. They participate in the daily work of a prominent organization and experience the career world up close. The participants take part in research, writing, and the promotion of different projects that focus on strengthening Israel.
